Subject: Review of NCA4 process

All:

Just an FYI/heads-up that OSTP has embarked upon a review of the process for developing the last NCA. The review is being conducted by the Science and Technology Policy Institute (STPI), which is a long-established and well-qualified organization similar to the National Laboratories, primarily for conducting work on behalf of OSTP. Mike Kuperberg has voiced his strong support for this effort to both OSTP and to the agency principals.

I am telling you about this because STPI may call you and ask you about your experiences with the NCA4 development. I encourage your full engagement with this effort, which we hope can identify good practices and opportunities for improvement for the development of NCA5. My apologies for the late notice if you've already been contacted.

Let me know if you have any questions.

Andy
